OPENING TIMES

Monday: Closed
Tuesday: 10:00 – 16:00
Wednesday: 10:00 – 16:00
Thursday: 10:00 – 16:00
Friday: 10:00 – 19:00
Saturday: 9:00 – 16:00
Sunday: 9:00 – 13:00

ACCESSIBILITY

The museum has wheelchair accessibility ramps. It also has audio guides and braille display signs for the visually impaired.

FOOD AND DRINK

There is a café attached to the museum where you can get light lunches, soft drinks, coffee, snacks and more.

SHOP

Our shop offers a range of memorabilia from the museum as well as great gifts and activity packs that allow you to continue to explore science even after you've left the museum.

Special Events & Exhibitions

Visiting Professor of Aeronautics

It is our pleasure to announce that Prof Sheila Widnall from the Massachusetts Institute of Technology will be delivering 3 lectures on the development of aeronautics and where the future lies in this exciting 'space'.

Night in the Museum

Get your family together for an exciting night in the museum as you sleep over beside dinosaurs and science displays. Bring your own sleeping bag and get ready to rough it as we go exploring the wonders of science.

Night in the Museum

On loan from the NEMO Science Museum in Amsterdam, the Energetica exhibition is coming to the Community Science Museum. It's a series of installations that allow visitors to experience the power of the elements as we harness them. From solar energy powering lighting, to 'Wind Island' that shows how turbines are able to use and control wind to

LOCATION

The museum is located at: North science Road. 6790 Street

MUSEUM

Are you a young person looking to learn more about science? Come on down to our museum, there's plenty to see & do.

Explore together

Exhibition Spaces

Check out our Exhibitions.

We have everything from cosmology to echology, robotics & AI & much more

Cosmology

Explore the wonders of our cosmos. Our fantastic exhibition, 'The Sky Above Us', explores the night sky and what we can see and know about the universe around us.

We'll locate the various constellations and galaxies that can be seen and learn a bit about the early navigators who used the stars to travel by.

Evolution

Discover the origins of life on this planet and how the species we know today have evolved over time.

You can also take some time to meet a few of the creatures who didn't survive, including our Woolly Mammoth, the Dodos, and a number of dinosaurs too.

Discover the origins of life on this planet and how the species we know today have evolved over time.

You can also take some time to meet a few of the creatures who didn't survive, including our Woolly Mammoth, the Dodos, and a number of dinosaurs too.

Biology & Medicine

For many people their life expectancy is much longer and their quality of life much improved, thanks to the growth of our understanding of medicine.

Over a series of exhibits we explore the history of medicine and take a look at some major breakthroughs including the discovery of penicillin and the first heart transplant.

Robotics & AI

The information revolution is here and robotics and artificial intelligence are the science of the future.

From useful home applications of AI to industrial uses of robotics, the future is here. You can even say hello and shake the hand of Rob the Robot.

Ecology

In our ecology section of the museum, we unpack the dangers we currently face including global warming, extinction of species, and pollution.

But we also focus on the positive ways we can all contribute to a brighter future.
